## PROFILE SUMMARY

A Front end Developer and a UI Designer seeking to leverage a C.G.P.A of 3.84 and knowledge/skills gained for a professional career opportunity in an organization that offers to develop knowledge of information and technology while participating in the development of the company. With additional proficiency in data science and a problem solving mindset, I am adaptable and flexible, ready to excel in any project or field I engage with. My goal is to enhance my technical skills and ability through a constant learning process and also to keep myself dynamic in this highly competitive space.
